III. RESTRICTIONS AND CERTIFICATIONS

Check the applicable restriction and certification below:

- ☒ A. Restricted waste that exceeds treatment standards or prohibition levels [40 CFR 268.7(a)(1)].

The restricted waste identified above must be treated to meet the applicable 40 CFR 268 Subpart D treatment standards or treated to comply with applicable prohibitions set forth in Part 268.32 or Section 3004(d) or RCRA. I have indicated all underlying hazardous constituents for EPA waste codes D001 (which is not in the High TOC Ignitable Liquids subcategory or other ignitable waste that will be treated by combustion or recovery of organics), D002, and/or D012-D043; all regulated constituents likely to be present in the waste for EPA waste codes F001-F005 and/or F039; and, contaminants subject to treatment for hazardous debris in this document and have attached, or previously submitted, all supporting data, where available.

- ☐ B. Restricted waste that meets treatment standards or prohibition levels without treatment [40 CFR 268.7(a)(2)].

"I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 40 CFR Part 268 Subpart D and all applicable prohibitions set forth in 40 CFR 268.32 or RCRA section 3004(d). I believe that the information I submitted is true, accurate and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment."

- ☐ C. Restricted waste that is treated to meet treatment or prohibition levels [40 CFR 268.7(b)(5)(i)]

"I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 40 CFR Part 268 Subpart D and all applicable prohibitions set forth in 40 CFR 268.32 or RCRA section 3004(d). I believe that the information I submitted is true, accurate and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment."

- ☐ D. Restricted waste that is subject to an exemption from prohibition on the type of land disposal method utilized for waste.

"I hereby certify that this waste is subject to an exemption from prohibition (case by case extension under 40 CFR 268.5, an exemption under 40 CFR 268.6, or a nationwide capacity variance under 40 CFR 268 Supart C), on the type of land disposal method utilized for the waste."

- ☐ E. Restricted waste is a laboratory pack utilizing an alternative treatment standard pursuant to 40 CFR 268.42(c) [40 CFR 268.7(a)(8)]

"I certify under penalty of law that I personally have examined and am familiar with the waste and that the lab pack does not contain any waste identified at Appendix IV to Part 268. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine or imprisonment."

- ☐ F. Restricted waste is D001 (and is not in the High TOC Ignitable Liquids subcategory or other ignitable waste that will be treated by combustion or recovery of organics), D002 and/or D012 through D043 characteristic waste subject to 40 CFR 268.40 which have been treated to remove the hazardous characteristic [40 CFR 268.7(b)(5)(iv)]

"I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.40 to remove the hazardous characteristic. This decharacterized waste contains underlying hazardous constituents that require further treatment to meet universal treatment standards. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment."

- ☐ G. Restricted waste treated to meet a treatment standard expressed as a technology [40 CFR 268.7(b)(5)(ii)]

"I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.42. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment."

PHILIP ENVIRONMENTAL, RHO-CHEM FACILITY

LAND DISPOSAL RESTRICTION NOTIFICATION AND CERTIFICATION

The information provided within this document is based upon the land disposal restrictions and prohibitions under 40 CFR 268 and RCRA Section 3004(d). Waste analysis data, where available, has been previously submitted with the waste profile identified in Section I of this notice.

I. SHIPMENT INFORMATION

Generator CONTINENTAL HEAT TREATING Profile Number 330170

Manifest No. 92654822 EPA Waste Codes F001,D039

Is this waste generated by a Conditionally Exempt Small Quantity Generator as defined in 40 CFR 261.5?

If yes, your waste is not subject to the Land Disposal Restrictions. Proceed to Section IV

☐ Yes ☒ No

2. Is this waste a wastewater (WW) or a nonwastewater (NWW) [40 CFR 268.2]? ☐ WW ☒ NWW

3. Is the waste a D001 (and is not in the High TOC Ignitable Liquids subcategory or other ignitable that will be treated by combustion (CMBST) or recovery of organics (RORGs)), D002, and/or D012 through D043 waste which is subject to the treatment standards of 40 CFR 268.40 and contains underlying constituents (as defined in 40 CFR 268.2(i) (See Attachment A for list)? If yes, all underlying hazardous constituents must be listed in Section II of this notice. ☐ Yes ☒ No

4. Is this waste a F001 through F005 spent solvent? If yes, all regulated constituents (See Attachment A) likely to be present must be listed in Section II of this notice. ☒ Yes ☐ No

5. Is this waste a F039 Multi-Source Leachate? If yes, all regulated constituents (See Attachment A) likely to be present must be listed in Section II of this notice. ☐ Yes ☒ No

6. Is this waste a hazardous debris? If yes, check the box that applies. ☐ Yes ☒ No

☐ This waste will be treated by using an alternate technology specified in 40 CFR 268.45?

☐ This waste will be treated to meet the treatment standards of 40 CFR 268.40 for the contaminating wastes.

List contaminants subject to treatment in Section II of this notice.

7. Is this a RCRA Section 3004(d) or 40 CFR 268.32 California List Waste? ☐ Yes ☒ No

If yes, check the appropriate boxes.

a. Liquid hazardous wastes, including free liquids associated with any solid or sludge containing the following at concentrations greater than or equal to those specified below:

☐ Nickel and/or compounds (as Ni) - 134 mg/l

☐ Thallium and/or compounds (as Tl) - 130 mg/l

☐ PCBs - 50 ppm

b. ☐ Hazardous waste liquid or solid containing halogenated organic compounds (HOCs) in concentrations greater than or equal to 1,000 mg/kg excepting wastes already subject to a treatment standard.

III. RESTRICTIONS AND CERTIFICATIONS

Check the applicable restriction and certification below:

- ☒ A. Restricted waste that exceeds treatment standards or prohibition levels [40 CFR 268.7(a)(1)].

The restricted waste identified above must be treated to meet the applicable 40 CFR 268 Subpart D treatment standards or treated to comply with applicable prohibitions set forth in Part 268.32 or Section 3004(d) or RCRA. I have indicated all underlying hazardous constituents for EPA waste codes D001 (which is not in the High TOC Ignitable Liquids subcategory or other ignitable waste that will be treated by combustion or recovery of organics), D002, and/or D012-D043; all regulated constituents likely to be present in the waste for EPA waste codes F001-F005 and/or F039; and, contaminants subject to treatment for hazardous debris in this document and have attached, or previously submitted, all supporting data, where available.

- ☐ B. Restricted waste that meets treatment standards or prohibition levels without treatment [40 CFR 268.7(a)(2)].

"I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 40 CFR Part 268 Subpart D and all applicable prohibitions set forth in 40 CFR 268.32 or RCRA section 3004(d). I believe that the information I submitted is true, accurate and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment."

- ☐ C. Restricted waste that is treated to meet treatment or prohibition levels [40 CFR 268.7(b)(5)(i)]

"I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 40 CFR Part 268 Subpart D and all applicable prohibitions set forth in 40 CFR 268.32 or RCRA section 3004(d). I believe that the information I submitted is true, accurate and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment."

- ☐ D. Restricted waste that is subject to an exemption from prohibition on the type of land disposal method utilized for waste.

"I hereby certify that this waste is subject to an exemption from prohibition (case by case extension under 40 CFR 268.5, an exemption under 40 CFR 268.6, or a nationwide capacity variance under 40 CFR 268 Supart C), on the type of land disposal method utilized for the waste."

- ☐ E. Restricted waste is a laboratory pack utilizing an alternative treatment standard pursuant to 40 CFR 268.42(c) [40 CFR 268.7(a)(8)]

"I certify under penalty of law that I personally have examined and am familiar with the waste and that the lab pack does not contain any waste identified at Appendix IV to Part 268. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine or imprisonment."

- ☐ F. Restricted waste is D001 (and is not in the High TOC Ignitable Liquids subcategory or other ignitable waste that will be treated by combustion or recovery of organics), D002 and/or D012 through D043 characteristic waste subject to 40 CFR 268.40 which have been treated to remove the hazardous characteristic [40 CFR 268.7(b)(5)(iv)]

"I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.40 to remove the hazardous characteristic. This decharacterized waste contains underlying hazardous constituents that require further treatment to meet universal treatment standards. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment."

- ☐ G. Restricted waste treated to meet a treatment standard expressed as a technology [40 CFR 268.7(b)(5)(ii)]

"I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.42. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment."

LAND DISPOSAL RESTRICTION NOTIFICATION AND CERTIFICATION

The information provided within this document is based upon the land disposal restrictions and prohibitions under 40 CFR 268 and RCRA Section 3004(d). Waste analysis data, where available, has been previously submitted with the waste profile identified in Section I of this notice.

I. SHIPMENT INFORMATION

Generator CONTINENTAL HEAT TREATING Profile Number 7739

Manifest No. 92657877 EPA Waste Codes F001.D039

1. Is this waste generated by a Conditionally Exempt Small Quantity Generator as defined in 40 CFR 261.5?
If yes, your waste is not subject to the Land Disposal Restrictions.
Proceed to Section IV ☐ Yes ☒ No
2. Is this waste a wastewater (WW) or a nonwastewater (NWW) [40 CFR 268.2]? ☐ WW ☒ NWW
3. Is the waste a D001 (and is not in the High TOC Ignitable Liquids subcategory or other ignitable that will be treated by combustion (CMBST) or recovery of organics (RORGs)), D002, and/or D012 through D043 waste which is subject to the treatment standards of 40 CFR 268.40 and contains underlying constituents (as defined in 40 CFR 268.2(i) (See Attachment A for list)? If yes, all underlying hazardous constituents must be listed in Section II of this notice. ☐ Yes ☒ No
4. Is this waste a F001 through F005 spent solvent? If yes, all regulated constituents (See Attachment A) likely to be present must be listed in Section II of this notice. ☒ Yes ☐ No
5. Is this waste a F039 Multi-Source Leachate? If yes, all regulated constituents (See Attachment A) likely to be present must be listed in Section II of this notice. ☐ Yes ☒ No
6. Is this waste a hazardous debris? If yes, check the box that applies. ☐ Yes ☒ No
☐ This waste will be treated by using an alternate technology specified in 40 CFR 268.45?
☐ This waste will be treated to meet the treatment standards of 40 CFR 268.40 for the contaminating wastes.

List contaminants subject to treatment in Section II of this notice.

7. Is this a RCRA Section 3004(d) or 40 CFR 268.32 California List Waste? ☐ Yes ☒ No
If yes, check the appropriate boxes.
 - a. Liquid hazardous wastes, including free liquids associated with any solid or sludge containing the following at concentrations greater than or equal to those specified below:
☐ Nickel and/or compounds (as Ni) - 134 mg/l
☐ Thallium and/or compounds (as Tl) - 130 mg/l
☐ PCBs - 50 ppm
 - b. ☐ Hazardous waste liquid or solid containing halogenated organic compounds (HOCs) in concentrations greater than or equal to 1,000 mg/kg excepting wastes already subject to a treatment standard.

III. RESTRICTIONS AND CERTIFICATIONS

Check the applicable restriction and certification below:

- ☒ A. Restricted waste that exceeds treatment standards or prohibition levels [22 CCR 66268.7(a)(1)].

The restricted waste identified above must be treated to meet the applicable treatment standards found in 22 CCR Chapter 18, Article 4 or 11 of or treated to comply with applicable prohibitions set forth in section 66268.32 or Section 3004(d) of RCRA. I have indicated all underlying hazardous constituents for EPA waste codes D001 (which is not in the High TOC Ignitable Liquids subcategory or other ignitable waste that will be treated by combustion or recovery of organics), D002, and/or D012-D043; all regulated constituents likely to be present in the waste for EPA waste codes F001-F005 and/or F039; and, contaminants subject to treatment for hazardous debris in this document and have attached, or previously submitted, all supporting data, where available.

- ☐ B. Restricted waste that meets treatment standards or prohibition levels without treatment [22 CCR 66268.7(a)(2)].

"I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 22 CCR Chapter 18, Article 4 or 11 and all applicable prohibitions set forth in 22 CCR 66268.32 or RCRA section 3004(d). I believe that the information I submitted is true, accurate and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment."

- ☐ C. Restricted waste that is treated to meet treatment or prohibition levels [22 CCR 66268.7(b)(5)(i)].

"I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 22 CCR Chapter 18 Article 4 or 11 and all applicable prohibitions set forth in 22 CCR 66268.32 or RCRA section 3004(d). I believe that the information I submitted is true, accurate and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment."

- ☐ D. Restricted waste that is subject to an exemption from prohibition on the type of land disposal method utilized for waste.

"I hereby certify that this waste is subject to an exemption from prohibition (case by case extension under 22 CCR 66268.5, an exemption under 22 CCR 66268.6, or a nationwide capacity variance under 22 CCR Chapter 18 Article 3), on the type of land disposal method utilized for the waste."

- ☐ E. Restricted waste is a laboratory pack utilizing an alternative treatment standard pursuant to 22 CCR 66268.42(c) [22 CCR 66268.7(a)(8)].

"I certify under penalty of law that I personally have examined and am familiar with the waste and that the lab pack does not contain any waste identified at Appendix IV to 22 CCR Chapter 18 or solid wastes subject to regulation under 22 CCR Chapter 11. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine or imprisonment."

- ☐ F. Restricted waste is D001 (and is not in the High TOC Ignitable Liquids subcategory or other ignitable waste that will be treated by combustion or recovery of organics), D002 and/or D012 through D043 characteristic waste subject to 22 CCR 66268.40 which have been treated to remove the hazardous characteristic [22 CCR 66268.7(b)(5)(iv)].

"I certify under penalty of law that the waste has been treated in accordance with the requirements of 22 CCR 66268.40 to remove the hazardous characteristic. This decharacterized waste contains underlying hazardous constituents that require further treatment to meet universal treatment standards. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment."

- ☐ G. Restricted waste treated to meet a treatment standard expressed as a technology [22 CCR 66268.7(b)(5)(ii)].

"I certify under penalty of law that the waste has been treated in accordance with the requirements of 22 CCR 66268.42. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment."

LAND DISPOSAL RESTRICTION NOTIFICATION AND CERTIFICATION

This document is submitted in compliance with 22 CCR 66268.7. The information provided within this document is based upon the land disposal restrictions and prohibitions under 22 CCR 66268 and RCRA Section 3004(d). Waste analysis data, where available, has been previously submitted with the waste profile identified in Section I of this notice.

I. SHIPMENT INFORMATION

Generator CONTINENTAL HEAT TREATING Profile Number 7739
Manifest No. 93489930 EPA Waste Codes F001, D039

1. Is this waste generated by a Conditionally Exempt Small Quantity Generator as defined in 22 CCR 66261.5?

If yes, your waste is not subject to the Land Disposal Restrictions.

Proceed to Section IV

☐ Yes ☒ No

2. Is this waste a wastewater (WW) or a nonwastewater (NWW) [22 CCR 66268.2]? ☐ WW ☒ NWW

3. Is the waste a D001 (and is not in the High TCC Ignitable Liquids subcategory or other ignitable that will be treated by combustion (CMBST) or recovery of organics (RORGs)), D002, and/or D012 through D043 waste which is subject to the treatment standards of 22 CCR 66268.40 and contains underlying constituents (as defined in 22 CCR 66268.2(i) (See Attachment A for list)? If yes, all underlying hazardous constituents must be listed in Section II of this notice.

☐ Yes ☒ No

4. Is this waste a F001 through F005 spent solvent? If yes, all regulated constituents (See Attachment A) likely to be present must be listed in Section II of this notice.

☒ Yes ☐ No

5. Is this waste a F039 Multi-Source Leachate? If yes, all regulated constituents (See Attachment A) likely to be present must be listed in Section II of this notice.

☐ Yes ☒ No

6. Is this waste a hazardous debris? If yes, check the box that applies.

☐ Yes ☒ No

☐ This waste will be treated by using an alternate technology specified in 22 CCR 66268.45?

☐ This waste will be treated to meet the treatment standards of 22 CCR 66268.40 for the contaminating wastes.

List contaminants subject to treatment in Section II of this notice.

7. Is this a RCRA Section 3004(d) or 22 CCR 66268.32 California List Waste?

☐ Yes ☒ No

If yes, check the appropriate boxes.

- a. Liquid hazardous wastes, including free liquids associated with any solid or sludge containing the following at concentrations greater than or equal to those specified below:

☐ Nickel and/or compounds (as Ni) - 134 mg/l

☐ Thallium and/or compounds (as Tl) - 130 mg/l

☐ PCBs - 50 ppm

- b. ☐ Hazardous waste liquid or solid containing halogenated organic compounds (HOCs) in concentrations greater than or equal to 1,000 mg/kg excepting wastes already subject to a treatment standard.

II. WASTE IDENTIFICATION

EPA Waste Code	Subcategory	Underlying Hazardous Constituents for D001*, D002 or D012-D043 Regulated Constituents Likely to be Present in the Waste for F001-F005 or F039 Wastewater; or Contaminants Subject to Treatment for Hazardous Debris
F001, D039		TETRACHLOROETHYLENE

* Applies to D001 waste which are not in the High TOC Ignitable Liquids subcategory of other ignitable waste that will be treated by combustion or recovery of organics.

III. RESTRICTIONS AND CERTIFICATIONS

Check the applicable restriction and certification below:

- ☒ A. Restricted waste that exceeds treatment standards or prohibition levels [22 CCR 66268.7(a)(1)].

The restricted waste identified above must be treated to meet the applicable treatment standards found in 22 CCR Chapter 18, Article 4 or 11 of or treated to comply with applicable prohibitions set forth in section 66268.32 or Section 3004(d) of RCRA. I have indicated all underlying hazardous constituents for EPA waste codes D001 (which is not in the High TOC Ignitable Liquids subcategory or other ignitable waste that will be treated by combustion or recovery of organics), D002, and/or D012-D043; all regulated constituents likely to be present in the waste for EPA waste codes F001-F005 and/or F039; and, contaminants subject to treatment for hazardous debris in this document and have attached, or previously submitted, all supporting data, where available.

- ☐ B. Restricted waste that meets treatment standards or prohibition levels without treatment [22 CCR 66268.7(a)(2)].

"I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 22 CCR Chapter 18, Article 4 or 11 and all applicable prohibitions set forth in 22 CCR 66268.32 or RCRA section 3004(d). I believe that the information I submitted is true, accurate and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment."

- ☐ C. Restricted waste that is treated to meet treatment or prohibition levels [22 CCR 66268.7(b)(5)(i)]

"I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 22 CCR Chapter 18 Article 4 or 11 and all applicable prohibitions set forth in 22 CCR 66268.32 or RCRA section 3004(d). I believe that the information I submitted is true, accurate and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment."

- ☐ D. Restricted waste that is subject to an exemption from prohibition on the type of land disposal method utilized for waste.

"I hereby certify that this waste is subject to an exemption from prohibition (case by case extension under 22 CCR 66268.5, an exemption under 22 CCR 66268.6, or a nationwide capacity variance under 22 CCR Chapter 18 Article 3), on the type of land disposal method utilized for the waste."

- ☐ E. Restricted waste is a laboratory pack utilizing an alternative treatment standard pursuant to 22 CCR 66268.42(c) [22 CCR 66268.7(a)(8)]

"I certify under penalty of law that I personally have examined and am familiar with the waste and that the lab pack does not contain any waste identified at Appendix IV to 22 CCR Chapter 18 or solid wastes subject to regulation under 22 CCR Chapter 11. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine or imprisonment."

- ☐ F. Restricted waste is D001 (and is not in the High TOC Ignitable Liquids subcategory or other ignitable waste that will be treated by combustion or recovery of organics), D002 and/or D012 through D043 characteristic waste subject to 22 CCR 66268.40 which have been treated to remove the hazardous characteristic [22 CCR 66268.7(b)(5)(iv)]

"I certify under penalty of law that the waste has been treated in accordance with the requirements of 22 CCR 66268.40 to remove the hazardous characteristic. This decharacterized waste contains underlying hazardous constituents that require further treatment to meet universal treatment standards. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment."

- ☐ G. Restricted waste treated to meet a treatment standard expressed as a technology [22 CCR 66268.7(b)(5)(ii)]

"I certify under penalty of law that the waste has been treated in accordance with the requirements of 22 CCR 66268.42. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment."

III. RESTRICTIONS AND CERTIFICATIONS

Check the applicable restriction and certification below:

- ☒ A. Restricted waste that exceeds treatment standards or prohibition levels [22 CCR 66268.7(a)(1)].

The restricted waste identified above must be treated to meet the applicable treatment standards found in 22 CCR Chapter 18, Article 4 or 11 of or treated to comply with applicable prohibitions set forth in section 66268.32 or Section 3004(d) of RCRA. I have indicated all underlying hazardous constituents for EPA waste codes D001 (which is not in the High TOC Ignitable Liquids subcategory or other ignitable waste that will be treated by combustion or recovery of organics), D002, and/or D012-D043; all regulated constituents likely to be present in the waste for EPA waste codes F001-F005 and/or F039; and, contaminants subject to treatment for hazardous debris in this document and have attached, or previously submitted, all supporting data, where available.

- ☐ B. Restricted waste that meets treatment standards or prohibition levels without treatment [22 CCR 66268.7(a)(2)].

"I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 22 CCR Chapter 18, Article 4 or 11 and all applicable prohibitions set forth in 22 CCR 66268.32 or RCRA section 3004(d). I believe that the information I submitted is true, accurate and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment."

- ☐ C. Restricted waste that is treated to meet treatment or prohibition levels [22 CCR 66268.7(b)(5)(i)]

"I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 22 CCR Chapter 18 Article 4 or 11 and all applicable prohibitions set forth in 22 CCR 66268.32 or RCRA section 3004(d). I believe that the information I submitted is true, accurate and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment."

- ☐ D. Restricted waste that is subject to an exemption from prohibition on the type of land disposal method utilized for waste.

"I hereby certify that this waste is subject to an exemption from prohibition (case by case extension under 22 CCR 66268.5, an exemption under 22 CCR 66268.6, or a nationwide capacity variance under 22 CCR Chapter 18 Article 3), on the type of land disposal method utilized for the waste."

- ☐ E. Restricted waste is a laboratory pack utilizing an alternative treatment standard pursuant to 22 CCR 66268.42(c) [22 CCR 66268.7(a)(8)]

"I certify under penalty of law that I personally have examined and am familiar with the waste and that the lab pack does not contain any waste identified at Appendix IV to 22 CCR Chapter 18 or solid wastes subject to regulation under 22 CCR Chapter 11. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine or imprisonment."

- ☐ F. Restricted waste is D001 (and is not in the High TOC Ignitable Liquids subcategory or other ignitable waste that will be treated by combustion or recovery of organics), D002 and/or D012 through D043 characteristic waste subject to 22 CCR 66268.40 which have been treated to remove the hazardous characteristic [22 CCR 66268.7(b)(5)(iv)]

"I certify under penalty of law that the waste has been treated in accordance with the requirements of 22 CCR 66268.40 to remove the hazardous characteristic. This decharacterized waste contains underlying hazardous constituents that require further treatment to meet universal treatment standards. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment."

- ☐ G. Restricted waste treated to meet a treatment standard expressed as a technology [22 CCR 66268.7(b)(5)(ii)]

"I certify under penalty of law that the waste has been treated in accordance with the requirements of 22 CCR 66268.42. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment."

SOUTHDOWN ENVIRONMENTAL SYSTEMS

Rho-Chem Corporation

LAND DISPOSAL RESTRICTION NOTIFICATION AND CERTIFICATION

This document is submitted in compliance with 22 CCR 66268.7. The information provided within this document is based upon the land disposal restrictions and prohibitions under 22 CCR 66268 and RCRA Section 3004(d). Waste analysis data, where available, has been previously submitted with the waste profile identified in Section I of this notice.

I. SHIPMENT INFORMATION

Generator Continental Heat Treat Profile Number 7739
Manifest No. 95302546 EPA Waste Codes F001, D039

1. Is this waste generated by a Conditionally Exempt Small Quantity Generator as defined in 22 CCR 66261.5?

If yes, your waste is not subject to the Land Disposal Restrictions.

Proceed to Section IV

☐ Yes ☒ No

2. Is this waste a wastewater (WW) or a nonwastewater (NWW) [22 CCR 66268.2]? ☐ WW ☒ NWW

3. Is the waste a D001 (and is not in the High TOC Ignitable Liquids subcategory or other ignitable that will be treated by combustion (CMBST) or recovery of organics (RORGs)), D002, and/or D012 through D043 waste which is subject to the treatment standards of 22 CCR 66268.40 and contains underlying constituents (as defined in 22 CCR 66268.2(i) (See Attachment A for list)? If yes, all underlying hazardous constituents must be listed in Section II of this notice. ☒ Yes ☐ No

4. Is this waste a F001 through F005 spent solvent? If yes, all regulated constituents (See Attachment A) likely to be present must be listed in Section II of this notice. ☒ Yes ☐ No

5. Is this waste a F039 Multi-Source Leachate? If yes, all regulated constituents (See Attachment A) likely to be present must be listed in Section II of this notice. ☐ Yes ☒ No

6. Is this waste a hazardous debris? If yes, check the box that applies. ☐ Yes ☒ No

☐ This waste will be treated by using an alternate technology specified in 22 CCR 66268.45?

☐ This waste will be treated to meet the treatment standards of 22 CCR 66268.40 for the contaminating wastes.

- List contaminants subject to treatment in Section II of this notice.

7. Is this a RCRA Section 3004(d) or 22 CCR 66268.32 California List Waste? ☐ Yes ☒ No

If yes, check the appropriate boxes.

- a. Liquid hazardous wastes, including free liquids associated with any solid or sludge containing the following at concentrations greater than or equal to those specified below:

☐ Nickel and/or compounds (as Ni) - 134 mg/l

☐ Thallium and/or compounds (as Tl) - 130 mg/l

☐ PCBs - 50 ppm

- b. ☐ Hazardous waste liquid or solid containing halogenated organic compounds (HOCs) in concentrations greater than or equal to 1,000 mg/kg excepting wastes already subject to a treatment standard.

II. WASTE IDENTIFICATION

EPA Waste Code	Subcategory	Underlying Hazardous Constituents for D001*, D002 or D012-D043 Regulated Constituents Likely to be Present in the Waste for F001-F005 or F039 Wastewater; or Contaminants Subject to Treatment for Hazardous Debris
F001	—	Tetrachloroethylene
D039	—	Tetrachloroethylene

* Applies to D001 waste which are not in the High TOC Ignitable Liquids subcategory of other ignitable waste that will be treated by combustion or recovery of organics

Southdown Environmental Systems

Rho-Chem Facility

CERTIFICATE OF MANAGEMENT FOR WASTE MATERIALS

The waste materials identified in Uniform Hazardous Waste Manifest No. 95302546 have been received and accepted by the Southdown Environmental Systems, Rho-Chem facility in Inglewood, California and have been properly managed in accordance with all applicable federal, state, and local environmental laws, regulation and ordinances.

I certify that the information contained in this document is true, accurate and complete.
